

## A Message from Richard *Let it Snow*

Even though the "blizzard of 2010" was a bit of a bust, it has still been a monumental winter in Utah, with several big snowstorms hitting us so far this season. It looks like the remainder of the winter will be busy! Who knows, we could be on the way to a record breaking year, similar to the winter months in 1951-52, when Salt Lake City had the most snow ever recorded at 117.3 inches. Whatever the season has in store, the crew at United Service and Sales will be here to make sure you are prepared. Come in and see us to service your plow, or install some Vision X lights for the days and nights of low visibility that are sure to come.

## What's Happening in the Industry?

### GIE+EXPO

Richard recently attended the Green Industry and Equipment (GIE) Expo in Louisville, Kentucky to check out all of the best new

products in the industry. It was a great opportunity for Richard to learn more about the products that United is considering adding to its inventory. The GIE Expo is the industry's largest showcase for outdoor power equipment, lawn and garden products, and light construction and landscape equipment. Learn more about the GIE Expo at <http://www.gie-expo.com/gieexpo/>.

United also had an opportunity to host a booth at the Utah Nursery and Landscape Association (UNLA) Expo, "Utah in Bloom" at the South Towne Expo Center in Sandy on January 24-26, 2011. With more than 1,800 attendees at the trade show, the event was a great success. Thank you to all of the United customers who dropped by to say hello. For more information on the UNLA Expo, visit <http://www.utahgreen.org/>.

## Product Sneak Peek: *GreenWorks Products*

greenworks

We are excited to announce the upcoming availability of GreenWorks products at United Service and Sales. No more pull cords, no more gas cans. The exciting new GreenWorks Lithium System of Tools require none of that. All GreenWorks products provide the power you need with a ZERO carbon footprint. For information on GreenWorks line of products, visit [www.greenworkstools.com](http://www.greenworkstools.com).

## Special Offer: Free Snow Blower or Mower Oil and Filter Change

**Treat your equipment right and it will return the favor. Bring your snow blower or mower in to United Service and Sales for a free oil and filter change. Limit one unit per customer, offer ends February 28, 2011.**
